Uniform Options for Steam & Cinders '18

When our local uniform store (SIS) put in my last uniform order from the makers he was informed that the company had decided to cease production of the Velocity uniform chosen for our Convention.

At this stage another source of Velocity uniforms has been found in Australia HOWEVER there are little or no Men's LARGE sizes available. While we have been assured there are plenty of all other sizes available a back-up plan is now in place and as this means a change of style (colour combination will be the same) we have also added a button-up shirt to the mix – in for a penny, in for a pound, as they say!! PLEASE NOTE: shirts are \$10 more than the polos!! (i.e. \$45 each).

Measurements for both polos are the same. The measurements for the shirts are slightly larger (to allow for non-stretch material), so the measurement guide on the Registration Form will still be right.

So here are the options:

- ❖ For all Velocity Polo sizes other than Men's Large order as normal
- ❖ If you would have normally ordered a Men's Large you can either
 1. Go down to a Medium or go up to an Xtra Large **OR**
 2. Order Large, and you will receive the alternative Nitro uniform style (we will try and get the Velocity first)
- ❖ If you would prefer a Nitro button-up shirt order as normal

1. Current Convention Uniform

2. Alternative Polo
(polyester/cotton + knit)

3. Alternative Shirt
(polyester/cotton)
